

HELENE/MILTON UPDATE 11/8

(Please see previous updates for additional important information)

All updates available on townofnrb.com

Happy Friday! Today's update is a short one as not much new information has come in. But we do have a couple of good news items.

Wishing everyone a nice weekend and a big Thank You to all of our Veteran's in honor of Veteran's Day Monday.

Free Meal Days

Fluffy's Mobile Hibachi (www.floridahibachi.com) will provide fresh cooked meals in the town hall parking lot on Thursday, November 21st and Wednesday, December 11th from 4:00 til 8:00 pm. The cost of the meals has been covered by a private donor.

Substantial Damage Estimates

The substantial damage estimators stopped into town hall today for the first time and had some good news. They are expecting to be finished with the residential estimates today (unfortunately no word on the completion of the commercial estimates yet)

We have also been informed that the estimators are entering the information into the FEMA calculation tool automatically so when the information is sent to our building department, the calculations will already be finished, thereby saving a step and time. Once the building department receives the estimates, the SDE letters will be sent out immediately. If your email is on file, you will receive the letter electronically as well as a copy in the mail.

Once the letter is received, permits can be issued. It is recommended by the Building Official to be proactive and get your permits filed so they can be in plan review process and ready to go once the letters are sent.

The application is available in person at the Safebuilt office or online at <https://safebuilt.com/locations/florida-gulf-coast-office>

Where can I find additional information?

For updated important information, please visit Pinellas County's Emergency Management website for a full list of resources at:
